Subject: University Park?

Hi;

I was talking to Miguel this morning. R5 is in a tizzy about the high lead in University Park, and he said someone in IEPA mentioned that you had some involvement with it. Is that true? We learned yesterday that AquaAmerican called in Cornwell, but we had not heard that you had some involvement before. Darren and I, of course, got pulled in. But, we are reluctant to divulge what we are thinking to anyone by IEPA and R5, and we're not sure that the "solution" is very straightforward, given the unknowns about galvanically-driven corrosion and the use of orthophosphate.

Anyway, let me know if you're enmeshed in this thing, too.

--Mike
